

Mortgage AI governance: ready for the **2026 rules**?

What Fannie Mae and Freddie Mac now require, and how to build the evidence trail.

Two dates on the calendar.

FREDDIE MAC

March 3

Requirements already in force.

FANNIE MAE

August 6, 2026

Requirements take effect.

Covers AI used in origination and servicing, including third-party and vendor use.

Sources in comments.

Four things you must show.

Clear policies

Written standards for how AI is built, tested, and put to use.

Risk management

Identify, measure, and control model risk on a continuous basis.

Oversight of third-party AI

Vendors and outside models held to the same governance.

Show your work

What you can produce when a GSE or reviewer asks.

**When that request comes,
what can you actually
produce?**

Every AI-assisted decision leaves an evidence trail.

Probabilistic AI handles the ambiguity. Deterministic decision models own the accountable decision.

AI in mortgage.

Explainable.

Repeatable.

Auditable.

Governed.
